Gallipoli 2015

Gelibolu

Australia and New Zealand conduct three Anzac Day services each year at Gallipoli. The Dawn Service at the Anzac Commemorative Site is conducted jointly by both countries and is followed by an Australian Memorial Service at Lone Pine, and a New Zealand Memorial Service at Chunuk Bair.

The Dawn Service commemorates the ANZAC landings at Gallipoli. At the conclusion of the Dawn Service most Australian visitors walk up to Lone Pine, with many New Zealand visitors continuing on to Chunuk Bair. This arrangement of successive services at these three sites has been in place since 2000.

The services sites at the Anzac Commemorative Site, Lone Pine and Chunuk Bair are all extremely constrained, with no opportunity for expansion. The Anzac Commemorative Site is located on a narrow strip of land bounded by the sea to the west and a densely wooded escarpment to the east. Lone Pine is at a cemetery on the top of Second Ridge and Chunuk Bair at a memorial on the top of a hill further along Second Ridge with a cemetery at its foot.

The sites are all located in the Gallipoli Historical National Park and are subject to a number of heritage and conservation restrictions. The Commonwealth War Graves Commission is responsible for the management of cemeteries and has strict requirements governing their use, such as not covering headstones with even temporary infrastructure.

The majority of visitors have a very clear expectation of their involvement in services at Gallipoli, which includes resting over night at the Anzac Commemorative Site, participating in the Dawn Service, and walking up Artillery Road in the morning to attend another service.

These are intrinsic and highly valued elements of the Anzac Day experience. We believe this access to solemn and respectful commemorative services will continue to be the expectation of visitors attending in 2015.

The Gallipoli Historical National Park is approximately 5 hours drive from Istanbul. There is no public transport to and from the peninsula. For this reason, the majority of visitors travel to the annual Gallipoli Anzac Day Commemorations on an organised tour.

The Australian Government acknowledges the desire of many Australians to attend the commemoration of the centenary of the ANZAC landings at Gallipoli in 2015.

We also want to make sure that Anzac Day services at Gallipoli in 2015 provide a safe and secure environment for all attendees, while maintaining solemn and respectful commemorations. To achieve this, the number of visitors that will be able to attend the Anzac Day centenary commemorations at Gallipoli will be around 10,000 people, which Australia will share with New Zealand.

To provide an opportunity for a wide range of Australians to attend the centenary commemorations, the Government has decided that a ballot system is the most fair, equitable and transparent process for allocating 'attendance passes'.

We want to hear your views about how the ballot system will work. We also want to know who you think should be the special category representatives to attend the Anzac Day centenary commemorations at Gallipoli.

For more information visit:

www.gallipoli2015.dva.gov.au

The consultation period will close on 30th November 2012.

# STRATEGIC MANAGEMENT PLAN 2008 - 2020

## 2020 Vision — Unobstructed Foresight

The Following is an extract from Council's Strategic Management Plan and covers Public Health, Order and Safety.

### Improving Wellbeing

Members of our District highly value the fact that their communities have low crime rates; they have a good range of essential and emergency services; lifestyles are healthy with high participation rates in sport and ready access to attractive natural environments; they have numerous opportunities for socialising; and they can rely on neighbours and friends in times of need. It is important that these lifestyle advantages are maintained by continuing to provide a safe and healthy local environment.

### STRATEGIES

#### 7.1 Ensure rural communities are equitably treated and represented

- 7.1.1 Lobby responsible levels of government and agencies to ensure adequate infrastructure provision and services
- 7.1.2 Work in partnership with district and regional health services to ensure the provision of adequate doctor and other health services to our communities

#### 7.2 Facilitate the provision of adequate emergency services

- 7.2.1 Support the provision of emergency services to the District
- 7.2.2 Ensure that our communities retain essential local emergency services
- 7.2.3 Work in partnership with district and regional authorities to ensure the provision and funding of adequate emergency services to our residents

#### 7.3 Maintain public health, order and safety

- 7.3.1 Develop and implement a regular mosquito control education campaign
- 7.3.2 Undertake regular inspections of food preparation businesses, encouraging participation in food handling training programs to ensure that all food premises within the District are rated good or excellent
- 7.3.3 Provide health promotion material and activities to encourage Council employees and residents to take responsibility for their own health
- 7.3.4 Ensure that communities have access to adequate medical facilities and visiting General Practitioners
- 7.3.5 Promote and provide an immunisation awareness program to encourage all residents to be immunised
- 7.3.6 Promote and provide an immunisation program for all school children
- 7.3.7 Provide sharps containers within key public toilets in townships

- 7.3.8 To provide support to Rural Watch and road safety groups within the District that work towards achieving the objective of maintaining safe and secure communities
- 7.3.9 Undertake regular liaison with the police to identify problems that may be arising to enable them to be addressed from a community perspective
- 7.3.10 Provide Development Control and inspection services that meet the needs and requirements of all stakeholders
- 7.3.11 Review Council's Development Plan on an annual basis
- 7.3.12 Participate in the development and operation of a regional development assessment panel
- 7.3.13 Respond to other public/community health, order and safety issues as required, e.g. Little Corella control

#### 7.4 Provide quality Dog and Cat Management services that meet the needs and requirements of the Community

- 7.4.1 Provide regular information about their responsibilities to the owners of domestic animals
- 7.4.2 Reduce the number of complaints from residents regarding domestic animals through promoting dog obedience information
- 7.4.3 Actively pursue 100% dog registrations within the Council area by promoting the benefits and through penalties for unregistered dogs
- 7.4.4 Regularly review and report to stakeholders on the implementation of Council's Dog and Cat Management Plan

### WIRRABARA COMMUNITY WASTEWATER MANAGEMENT SCHEME (CWMS) PROJECT

Council was given an update on the progress of the Wirrabara Community Wastewater Management Scheme Project at the October 2012 Meeting, namely:

- Detailed engineering designs are presently being prepared following the completion of the detailed site survey works;
- Land acquisition requirements have been identified and they are being pursued;
- No funding has been announced by the Minister for the project at this stage;
- Following completion of the first two items (above), the project will get re-costed by the engineers and the financial aspects assessed;
- A prudential review of the whole project will then be undertaken - this will likely be done by Council's auditor;
- Council will then consider and determine whether to proceed to the next stage;
- The formal community consultation will then be undertaken;
- Whilst that is happening, tender specifications and briefings will be prepared so that when the consultation is completed, tenders can be called and awarded;
- Critical points in the process still to follow are the funding from the Minister and the community consultation.

### MELROSE DEFIBRILLATOR

A Community Meeting was held at the Melrose Bowling Club on Monday 22<sup>nd</sup> October 2012 to discuss the community A.E.D. (Defibrillator).

Liz Bishop provided an overview of the project and outlined two options for the placement of the Defibrillator:

- Option A - attach to the wall of the Council building near the P.O. boxes;
- Option B - house it within the CFS shed.

The Defibrillator and associated equipment were shown and explained by Sally Lightburn. This was followed with a scenario using the Defibrillator to allay any fears the community might have in its safety and to show how simple it was to use.

At this time the consensus of the meeting was that a notepad and pen needed to be placed in the Defibrillator cabinet so that the first person on the scene to collect the Defibrillator could leave a message for the second respondent who would disarm the alarm and know where to go to assist with the incident.

Sean Cheriton, Chief Executive Officer, District Council of Mount Remarkable was invited to advise of progress he had made with insurance matters should Option A be accepted. He stated that there were still some issues regarding public liability that needed to be addressed.

Liz spoke of the research she had undertaken on the insurance aspects and of discussions she had with the office of State MP Dan van Holst Pellekaan.

There was considerable discussion on:

- the choice of 'walking away' and not rendering first aid,
- the insurance aspects,
- not insuring the machine at all and relying on the Good Samaritan Act.

Geoff Slee, Group Officer of the Mount Remarkable CFS Group advised that the machine may be insured by Region 4 CFS for damage & theft should it be located within the CFS building. CFS has immunity - so no public liability is required. It would be locked away under a key-code pad which only CFS members have access to. They would be able to obtain the machine for the community when required.

It was decided to house the Defibrillator at the CFS shed until the insurance issues can be sorted out.

Liz will contact all sporting clubs and organisations to advise them of the Defibrillator's placement for the present time. Notices will also be displayed on public notice boards. To assist with on-going costs of the Defibrillator (ie batteries, pads), donation boxes will be placed in both Melrose hotels.

*Any queries can be directed to Liz Bishop on 8666 2153.*

ENVIRONMENTAL HEALTH & DEVELOPMENT

PUBLIC HEALTH AND SAFETY

MOSQUITO CONTROL MEASURES

Mosquito bites can be more than just a nuisance. Mosquito bites can also transmit diseases. The most common disease passed on by mosquitoes in South Australia is Ross River fever. Other serious infections transmitted by mosquitoes include viral encephalitis, Barmah Forest virus infection, dengue fever (in Northern Queensland and in tropical countries around the world) and malaria (in tropical countries around the world).

People contract Ross River virus from mosquitoes during summer from many parts of South Australia. The most common areas are along the Murray River, Murray Lakes and coastal mangrove areas. However this should not stop people visiting these areas as simple protection is possible.

Following this simple advice will reduce the chance of mosquito bites and reduce the number of mosquitoes in the immediate environment.

Self protection from mosquito bites:

- Use insect repellents containing either - DEET (Diethyl toluamide). Always read the manufacturers' instructions prior to application. Wash DEET off before going to bed in the evening. Do not use on infants or toddlers if the DEET concentration exceeds 20% or - Picaridin, to cover areas of exposed skin.

© 1996 Stephen L. Doggett

- Wear loose fitting, light coloured clothing covering as much of the body as possible. Mosquitoes can bite through tight fitting clothing (for example jeans).
- Use 1mm insect screens on your house, boat, caravan or tent. If this is not possible, use a mosquito net when sleeping.

Elimination of mosquito breeding sites:

Mosquitoes breed in still water (fresh and salty). Clean up mosquito breeding sites around your house:

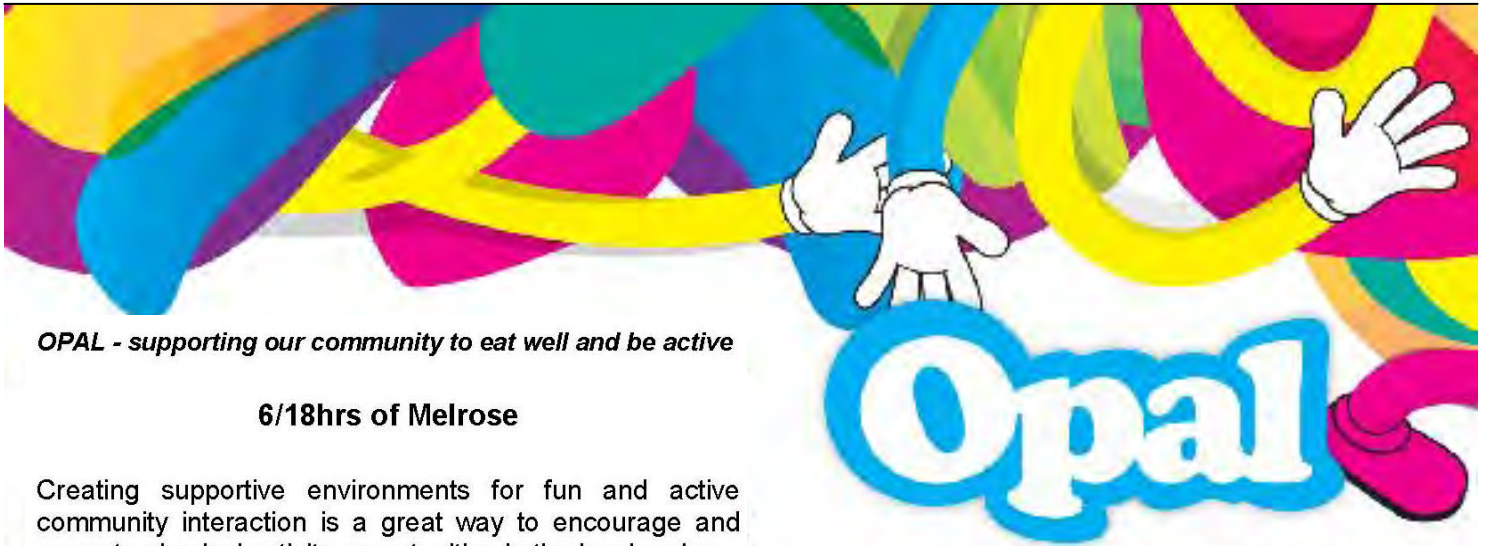

- Dispose of all containers which hold water or cover or put holes in them.
- Empty pot plant drip trays once per week or put sand around pot bases to absorb water.
- Empty bird baths and pets' drinking water at least every three days.
- Boats, canoes and dinghies should be overturned or have the drain plug removed so that they do not hold water after rain.
- Screen all openings to tanks, wells or other large water containers with wire gauze no coarser than 1mm mesh.
- Keep roof gutters in good repair and regularly remove leaves and debris so that pools of water do not form.
- Dispose of all waste water in such a way that no ponding occurs. Keep all open drains and channels free from obstruction, especially weeds, grass and other debris.
- Keep fish ponds, ornamental ponds, dams and unused swimming pools stocked with fish which will eat mosquito larvae. Goldfish and Australian native fish are recommended.
- Keep swimming pools disinfected or salted.

For further questions or queries on information relating to mosquito activities, contact:

Mark Smith
Environmental Health Officer

OPAL - supporting our community to eat well and be active

6/18hrs of Melrose

Creating supportive environments for fun and active community interaction is a great way to encourage and promote physical activity opportunities in the local region.

The 6/18hrs of Melrose, hosted by local business Over The Edge is a great example of an event that has become embedded in a community and contributes to creating a community culture that automatically thinks **bikes** before BROOOOOOMS.....

While the adults were enjoying the sights and competition of the event, it was a wonderful treat to see both local and visiting children enjoying the space to play, ride, create their own street circuits and become connected in the fun of the day. What a great way to support children develop active habits to live an active, healthy life.

Well done to Over The Edge for hosing such a fantastic local event.

Southern Flinders Regional Sporting Complex

Opening Day at Gladstone...

Working closely with Gladstone High Year 12 Home Economic students, OPAL were part of a fantastic team that chopped, sliced, wrapped and rolled over 500 healthy lunch wraps for students attending the 'Sports Bites' activities during the opening morning of the new Southern Flinders Regional Sporting Complex.

Congratulations to everyone involved for delivering an amazing mornings worth of activity and adventure. It was a fantastic way to celebrate this wonderful new facility that will allow for greater physical activity options in this region.

### 'WOMEN HOLD UP HALF THE SKY' AWARD

The Award is provided by the Hon Gail Gago MLC, Minister for the Status of Women and the Office for Women and administered by the Australia Day Council of SA.

The Award acknowledges the outstanding contribution of women in the community. Nomination forms are available from the Council Office. Nominations close 7<sup>th</sup> December 2012.

### MURRAY TOWN PROGRESS ASSOCIATION

The Murray Town Progress Association extends an invitation to attend their Remembrance Day Service on 11<sup>th</sup> November where the new Murray Town ANZAC plaque will be commemorated.

The service will be followed by lunch and the launch of the updated Murray Town book that Val Hobbs has completed (will be available for purchase on the day). The book, which has created a great deal of interest, is a pictorial history of houses from Wongyarra to Doughby and beyond.

Lastly, the new shed will be officially opened. It was funded by the sale of the Murray Town School with Council contributing \$15,000 towards the concrete floor. The shed was used very successfully for office space and the antiques (that are normally located in a tent) at this years Annual Murray Town Auction. The shed also provides storage for the Progress Association's tractor, slashers etc.

Please feel free to join the Murray Town Progress Association on the day. For catering, please contact:
