	Subject: For Consideration
	Report Date: 05/03/2020
	File Reference: DCMR0518
	Action: Yes
	Attachments: Yes
	Background: Walking SA have written to Council requesting Council consider lodging a motion at the upcoming National General Assembly of Local Government 2020 relating to a strategic focus on boosting walkability nationally. The correspondence is attached for Councillors reference
	Discussion: Council has many trails within the District and in recent years has committed resources to developing the trails.
	Financial, Resource and Risk Management Considerations: Nil
	Action: Councillors will need to consider Walking SA correspondence and determine if they wish to submit the recommended motion to the National General Assembly of Local Government 2020
	Recommendation: That the National General Assembly recognises that an increased uptake in walking and cycling nationally would result in financial benefits and improved health and wellbeing for Australians as well as enabling greater economic growth, productivity, social and environmental benefits.
	The National General Assembly therefore calls on the Federal Government to, in consultation with State, Territory and Local Government authorities to allocate funding for a fifth round of the Building Better Regions funding (or alternate funding source) to a national infrastructure project to link up the gaps in existing walking & cycling paths/trails in both cities and the regions.
	National Objective Increasing the number of people who walk and ride bikes for utility trips, recreation and tourism would have significant and wide-ranging benefits for individuals and the wider community which could be realised at all levels of government.
	The growth of our cities is leading to increasing congestion on roads and public transport networks. This congestion stifles economic growth and productivity as well as contributing to poor urban air quality, increasing carbon emissions and road trauma.

	Attachments: Yes
	Background:
	Council has received two separate pieces of correspondence regarding funding support for
	City of Unley litigation and are attached for Councillors reference.

	Action: Councillors will need to consider the correspondence from Matt Pinnegar, CEO Local Government Association of South Australia and Peter Tsokas, CEO The City of Unley and determine if Council wishes to make a voluntary contribution towards the City of Unley legal costs being \$294.

Background:

Back in 2014 Mr Noel Fraser received 9 Expiations and 9 Clearing charges for not complying with the Fire and Emergency Services Act 2005 (Act).

In 2014 the Council provided all property owners a Fire Hazard Reduction letter within the 1st Quarter Rates Notice.

Council conducted the annual inspection, prior to the Bush Fire Season commencing in where a Bushfire Hazard Reduction COMPLIANCE NOTICE that was posted to Mr Fraser on the 2nd October 2014 requesting to reduce all flammable or potentially flammable grass and undergrowth over the entire allotment/s within 14 days.

A second inspection was completed by the Fire Prevention Officer on the 24th October 2014, which indicated by (photo graphic) that the allotments had not been cleared and as such expiration notices were issued and posted on the 4th November 2014.

A third inspection was conducted by the Fire Prevention Officer on 24th November 2014, in which the property were still non-compliant and as a result Council slashed the properties, which was then charged to Mr Fraser.

In total Mr Frasier received 9 x Expiations and 9 x Clearing Chargers amounting to \$3,515. These chargers were not paid and as such were send to the Debt Collectors, as normal process back then.

Council received an objection in August 2017 and as such conducted an internal investigation and in good faith and without prejudice the Council agreed to reduce the fees, to a total of five properties from nine, and agreed to remove the account from Debt Collection and allow a further 30 days to pay the account in full or arrange for a formal payment arrangement.

As such the amounts outstanding were then 5 x \$315 Expiation Notice Fees, being a total of \$1,575 and 4 separate \$170 clearing charges, being a total of \$680, a grant total of \$2,255.

This was not paid and as such was returned back to Debt Collection in June 2018.

Council has a rubble agreement with Mr Fraser to enable Council to access rubble for road resheeting, but has advised Council's Director Works, Mr John Hadley, that he will not provide access any further until his Fines and Charges are waived.

Mr Frasier has advised the Debt Collection agency the following; "Mr Noel Frasier has advised this has been in dispute with the council for years, he claims he has been over charged and he will not be paying this bill at all, he claims the council have

	used this "PIT' a few times after this debt and he now advises the council cannot use the "PIT" anymore"
	<u>Discussion</u> : Councillors need to consider if the Fines and Charges as indicated are to waived to enable Council suitable assess to rubble for re-sheeting.
	Financial, Resource and Risk Management Considerations:
	Council being unable to access this pit will significantly increase the cost of the construction for the Gunyah Road and Abbott Road as the next closest rubble pit Council accesses is on Amyton Road an minimum additional 12km one way.
	Action: Councillors need to determine a suitable course of action.
