

District Council of
Mount Remarkable

15 October 2020

The District Council of Mount Remarkable can confirm it has reached a settlement with former Chief Executive Officer Mr Wayne Hart.

“We have agreed on terms, and can now all move forward” said Mayor Phillip Heaslip.

The final settlement amount payable was \$275,000.

“The Council have identified over \$300,000 in annual wage savings to date, and other operational efficiencies, thus the amount payable for the settlement is self-funding through savings the administration have been able to achieve” said Mayor Heaslip.

The Council acknowledges the service of Mr Hart whom served as Deputy Chief Executive Officer, and later Chief Executive Officer of the District Council of Mount Remarkable.

The Council looks forward to moving forward and delivering on the many great projects and initiatives underway, including the Remarkable Southern Flinders project, The Bluff project, and finalising some of the administrative tasks such as a full policy review and development of a new strategic plan.
