

24 March 2021

Hello

### **Water main upgrade works in Horrocks Highway, Wilmington**

As part of our water main renewal program, we will replace a water main in your area in the upcoming days. This investment will improve reliability of the main by reducing the risk of leaks, breaks and any unplanned service disruptions.

#### **What we're doing**

Together with our contractor Fleurieu Civil, we will be installing 1550 metres of new water main pipes along Horrocks Hwy, Wilmington.

#### **When it's happening**

The works are scheduled to start from early April and will take around 5 weeks to complete.

The start and duration is dependent on weather conditions and any technical constraints we may encounter.

Our standard construction hours are **from 7am to 5pm, Monday to Friday**. Some work out of these hours may be required at certain stages. Traffic management will be in place to ensure the safety of our work crew and the community.

#### **Keeping you updated**

If night works are required at any stage, we will let you know in advance. If we need to temporarily restrict access to your driveway, our crew on site will talk with you to let you know.

During construction, when we connect the newly constructed water main to the existing network, we may need to temporarily interrupt your water supply. Depending on your property's location, it may be necessary for more than one water interruption. Again, we will let you know in advance – at least four days – before any disruption.

If you have any questions about this renewal please contact me on **1300 729 283** or email [project@sawater.com.au](mailto:project@sawater.com.au).

Thank you for your patience and understanding.

Yours sincerely

**Maggie Volpiano**
