STARLINK

To improve clarity around your monthly bill, starting 1 month from today, your automatic payment date will be moved to the first day of your billing cycle, rather than 7 days into your billing cycle. We will also release a new way for you to preview your next monthly service invoice from your account at any time instead of receiving an emailed invoice each month. The invoice preview will update each day of the month and will reflect all charges due as of that day, including any overage data usage from your current cycle or recent changes to your service plan, if applicable.

No action is required from you at this time. For more information about the invoice preview change, learn more [here](#).
